Student: FELIPE

COURSE OBJECTIVE AND CONTENT

This course is designed to train indigenous personnel in paramilitary resistance activities and intelligence collection operations in denied areas. Approximately 70% of the student's time is devoted to practical work and field exercises and 30% to the theoretical aspects essential for a logical understanding and application of training covered during the course.

PERFORMANCE EVALUATION

- | | |
|----------------------|--|
| * U - Unsatisfactory | Performance is so low in relation to requirements of the work as to be unequivocally below minimum standards. |
| W - Weak | Achieved minimum standards, but less than adequate (in terms of indigenous personnel participating in the program). |
| A - Adequate | Has achieved the basic level required. Satisfactory, characterized neither by deficiency nor excellence. |
| P - Proficient | More than satisfactory. Has acquired a solid beginner's proficiency. This rating may be interpreted as representing "average" on our rating scale. |
| S - Strong | Exceptional proficiency, characterized by thoroughness, initiative, originality, and an exceptional student understanding and application of paramilitary resistance activities. |
| O - Outstanding | Performance is so exceptional in relation to requirements of the work and in comparison to the performance of other students doing similar work as to warrant special recognition. |

* Modification of the Office of Training standard rating scale at the specific request of JMWAVE.

The ratings above, and narrative comments hereunder, are derived from a synthesis of all evaluations submitted on each respective trainee by the instructor staff.

Overall performance ratings of all students in this class were as follows:

WEAK 0 ADEQUATE 0 PROFICIENT 6 STRONG 0 OUTSTANDING 0

NARRATIVE COMMENTS

FELIPE was handicapped to some degree by his weakness in English language. FELIPE's attitude throughout the course was cooperative and congenial. His participation in lectures, plans, and field exercises suffered from a lack of concentration and thoroughness. He appeared to have only a partial grasp of many of the topics presented. He was inclined to rush a bit in planning exercises and was also somewhat hasty in his execution of field work (Mapping, Recons, tactical movement in Raid and Ambush Exercises).

In his leadership assignment, he planned reasonably well, but his execution of the plan was weak and he lacked good control of the group.

FILIFE - Filipe has had no previous demolition training but indicated he had worked with explosives [redacted] His practical work was a little sloppy, not from lack of care but because he was not able to work too well with his hands. The practical work did not show any progress from commencement to completion of the course but his placements were well made and effective. He seemed to understand all subject matter covered and always answered test type questions correctly. Whenever crimping detonators, his hands were very shaky but he did not seem to be nervous at any other time during the course. Close supervision was required when he was crimping detonators. He was a cooperative, interested student who reacted well to correction. He seemed to enjoy the training and offered several new methods of attack based on personal experience. Filipe was rated overall as proficient.

PROVISIONAL OPERATIONAL APPROVAL

MEMORANDUM FOR: Chief,
WH/C/RR/OA

NUMBER

201 - 334081

SUBJECT

SMIANT/2

REFERENCE: Your Memorandum, Dated
1 October 1965 crm

A Provisional Operational Approval is granted for the use of this Subject as set forth below.

A Provisional Operational Approval issued by CI Staff grants the same authority, on a temporary basis, for the use of an individual as the authority granted in an Operational Approval unless otherwise specified by CI/OA. It is based, however, only on preliminary file checks and investigation and is subject to a further final review when all investigation is completed.

To process the Operational Approval, full information (completed PRQ Parts I and II) must be submitted as soon as possible and not later than six (6) months from this date. An Operational Approval will follow when all investigation is completed and upon the receipt of satisfactory PRQ Parts I and II. Cancellation must be requested if use of Subject by interested Divisions ceases.
